

PHYSICIAN'S APPOINTMENT FOR KINDERGARTEN

Trinity Christian School (and California State Law) requires your child to have a physical examination before entering school. You need to make an appointment early because physicians get swamped with requests in July and August before school begins. Make sure your appointment is between June 1 and August 15 to meet state requirements.

You need to make an appointment if your child is entering kindergarten for the first time - even if your child is currently in Preschool at Trinity Christian School. (Get a green physician's sheet from the office to take to the appointment.)

Please check the following to make sure your child receives the required immunizations to start kindergarten:

Polio	4 doses, but 3 doses are enough if at least one was given after the 4th birthday.
DTP	4 or more doses, but one more is needed if the last dose was given before the 4th birthday.
MMR	2 doses for kindergarten entry, both must be after 1st birthday.
Hepatitis B	3 doses

*Chicken Pox 1 dose or health care provider-documented varicella disease or immunity (Varicella)

I have scheduled my child's appointment for a physical and to update immunizations on _____

with Dr. _____
Name of Doctor
